

Table of Contents

	Page
Chapter 1: Interactions and Energy	
Activity 1: Measuring Motion	1-1
Activity 1 HW: Ideas about Learning Science ♦	1-15
Activity 2: Motion and Energy	1-19
Activity 2 HW: More on Scientific Explanations	1-37
Activity 3: Slowing and Stopping	1-43
Activity 3 HW: More on Contact Push/Pull Interactions	1-57
Activity 4: Warming and Cooling	1-61
Activity 4 HW: Interactions with the Surroundings	1-73
Activity 5: Light and Seeing.....	1-77
Activity 5 HW 1: Children's Ideas about Light ♦	1-97
Activity 5 HW 2 Reading: Children's Ideas about Light ♦	1-107
Activity 6: Electric Circuits	1-111
Activity 6 HW: Rate of Energy Transfer and Bulb Wattage	1-133
Activity 7: Keeping Track of Energy	1-139
Activity 7 HW: Energy Conservation and Efficiency	1-149
Activity 8: Explaining Phenomena Using Energy Ideas	1-155
Chapter 2: Interactions and Forces	
Activity 1: Interactions and Force	2-1
Activity 1 HW: Pushing a Skateboarder	2-19
Activity 2: Pushes and Slowing Down	2-25
Activity 2 HW: Combinations of Forces.....	2-41
Activity 3: Friction and Slowing	2-55
Activity 3 HW: Children's Ideas about Forces ♦	2-67
Activity 4: Changing Force-Strength and Mass	2-77
Activity 4 HW: Changing Direction	2-95
Activity 5: Motion with Balanced Forces	2-105
Activity 6: Explaining Phenomena using Force Ideas.....	2-117
Activity 6 HW: Children's Ideas about Friction ♦	2-127
Chapter 3: Interactions and Systems	
Activity 1: Magnetic Interactions	3-19
Activity 1 HW 1: Model for Magnetism	3-21
Activity 1 HW 2: Historical Development of a Model of Magnetism	3-31
Activity 2: Electric Charge Interactions	3-37
Activity 2 HW: Interactions Between Charged and Uncharged Objects	3-51
Activity 3: Gravitational Interactions.....	3-59
Activity 3 HW: Gravitational Potential Energy	3-67
Activity 4: Falling Objects	3-73
Activity 4 HW: Using Energy and Force Ideas.....	3-81
Activity 5: Explaining Phenomena using Energy and Force Ideas	3-87
Activity 5 HW: Observations, Inferences and Models.....	3-97

	Page
Chapter 4: Interactions and the Behavior of Gases	
Activity 1: The Small Particle Model and Gases	4-1
Activity 2: The SPM and Gas Pressure.....	4-15
Activity 2 HW: Explaining Phenomena Involving Gas Pressure	4-35
Activity 3: Effects of Pressure Difference	4-41
Activity 3 HW: Children’s Ideas about Gases ♦	4-53
Activity 4: The SPM and Temperature	4-63
Activity 4 HW 1: The Ideal Gas Law	4-81
Activity 4 HW 2: The Small Particle Simulator ♦	4-91
Activity 5: Explanations Involving Gases	4-97
Activity 5 HW: The Nature of Science ♦	4-103

Chapter 5: Interactions and Physical Changes	
Activity 1: Density	5-1
Activity 1 HW: Density, Sinking and Floating.....	5-15
Activity 2: Small Particle Model and Density of Liquids and Solids	5-19
Activity 2 HW: Density and the Small Particle Model.....	5-33
Activity 3: Heating Liquids and Solids	5-43
Activity 3 HW: Children’s Ideas about Density, Sinking, and Floating ♦	5-61
Activity 4: Changes of State and the Small Particle Model.....	5-71
Activity 4 HW: Melting and Boiling	5-85
Activity 5: Vapor Pressure and the Small Particle Model.....	5-91
Activity 5 HW: Vapor Pressure of other liquids	5-109
Activity 6: Solubility and the Small Particle Model	5-115
Activity 6 HW: Dissolving and Polarity	5-125
Activity 7: Explanations Involving Physical Changes.....	5-131
Activity 7 HW: Using Physical Properties and Changes	5-139

Chapter 6: Interactions and Chemical Changes	
Activity 1: Chemical Changes	6-1
Activity 1 HW: Rate of Chemical Changes and Temperature.....	6-13
Activity 2: Chemical Changes and the Small Particle Model	6-17
Activity 2 HW: Models of the Atom.....	6-33
Activity 3: Elements and Periodic Table.....	6-37
Activity 4: Atoms and Periodic Table.....	6-51
Activity 4 HW: Electrons, Chemical Bonds and Chemical Formulas	6-61
Activity 5: Conservation of Mass and the Small Particle Model	6-71
Activity 5 HW: Ideas about Learning Science ♦	6-85
Activity 6: Social Scientists’ Ideas ♦	6-87
Activity 7: Chemical Changes and Energy.....	6-91
Activity 7 HW: Solubility and Energy.....	6-105
Activity 8: Explanations Involving Chemical Changes.....	6-115

Appendices	
How to use the Motion Sensor with Data Studio	A-1
How to Use the PSET Simulators	A-5
How to use the Temperature Sensor with Data Studio.....	A-9
How to Use the PSET SPM Simulators	A-13
How to Use Safe Laboratory Practices	A-17
Characteristic Physical Properties Data	A-21

♦ These are special Learning About Learning activities and homework that focus on your own learning, the learning of children or the learning of scientists (nature of science).
